

ECONAU Data Set Documentation

Dale T. Mortensen Centre, Aarhus University —
Version 21/01/2022

Henning Bunzel

1 IDAS, IDA establishments

DSECONAU Updated: 10/08/2020. 2018 New. 2017 is missing, is copied from ?.
07/11/2018. 2007-2013 Updated, 2014-2016 New.
08/12/2016. 1980-2007 Updated.
ECONAU Updated: 09/09/2020. Updated.

1.1 Remarks on Update

FSE NYT

- **NYT 2-kv 2019.** IDAS 2008. 38.000 arbejdssteder har forkert baggrundsoplysninger. 2008-2017 ændringer i variabel navne.
- **NYT 4-kvartal 2018** 2007-2016. Alvorlig fejl.
- **NYT 2-kvartal 2018** 2007-2016. Alvorlig fejl.
- *IDAS* and *IDAN* have several variables defining the data the following year. They are not included in the latest year. Therefore we must always have current and previous year at each update for *IDAS* and *IDAN*.

Errors and questions

1. The *FSE* data sets, 1980-2007, have changed name (content) for the variable *ARBGNR*. *IDAS_2007* has been redelivered. Consider reordering 1980 to 2006.
2. Reorder 2017, 2018 . They are missing some variables, f.ex. *afgrate*, *andeluds*, *endnedl*, and all the lagged variables.

Department of Economics and Business Economics, Aarhus University, e-mail: hbunzel@econ.au.dk

3. In *ECONAU IDAS ARBGNR* has been renamed to *CVRNR*. Is this an error because *ARBGNR* in these data sets are equal to *ARBGNR9*?
4. All variables *LGRGNSARxxx* have a wrong label.
5. The *BRANCHE1* in *IDAS* has a mixture of DB77 and 111 group codes for DB93. It may be available from *RAS* or *ESR*.
6. *ARB_FUNKKODE* was included in previous *IDAS* 2008-2013. It is not included any longer. Many projects need this variable to identify the workplace as private or public. I assume that this is a problem for all datamanagers. It can be merged on from *ESR ARB* which has been ordered.
7. *ARBNR* has many illegal values.
8. *ARBSTK* has many missing values in the years 1980-1996 and 2007, which makes it impossible to match the workplace with data sets that do not contain *LBNR*.
9. The following variables are not included in 2012-2013: *AFGRATE*, *ANDELUDS*, *ENDNEDL*
10. The data set is unique on: (*AAR*, *LBR*)
11. RENAME: *ARBGNR* to *CVRNR*, *ARBNR* to *ARB_NR*, *KOM* to *ARB_KOM_KODE*, *ARBNRFR* to *ARB_NR_FREM*, *ARBNR TI* to *ARB_NR_TILB*, *ARB_FUNKKODE* to *ARB_FUNKTION_KODE*, *ADRXFREM* to *ADRX_FREM*, *ADRXTILB* to *ADRX_TILB*, *ANTALXFR* to *ANTALX_FREM*, *ANTALXTI* to *ANTALX_TILB*, *ARBSTKFR* to *ARB_STK_FREM*, *ARBSTKTI* to *ARB_STK_TILB*, *BESKXFR* to *BESKX_FREM*, *BESKXTI* to *BESKX_TILB*, *CVRNRFR* to *CVRNR_FREM*, *CVRNR TI* to *CVRNR_TILB*, *FRELFREM* to *FREL_FREM*, *FRELTILB* to *FREL_TILB*, *IDFREM* to *ID_FREM*, *IDTILB* to *ID_TILB*, *LBNRFREM* to *LBNR_FREM*, *LBNRTILB* to *LBNR_TILB*, *REGELFR* to *REGEL_FREM*, *REGELTI* to *REGEL_TILB*, *PCTFREM* to *PCT_FREM*, *PCTTILB* to *PCT_TILB*

Validity of KOM_KODE in IDAS *IDAS* has 0 observations in the years 1980-2006 with code values only defined from 2007.

IDAS has 0 observations in the years 2007-2013 with municipal codes only defined before 2007.

ARB_KOM_KODE has 22,276 missing values 1980-2013.

1.2 Description

TO BE ADDED
